TERMS OF SALE

1. This is a public auction and mail bid sale, conducted by PONTERIO & ASSOCIATES, INC. Subject to our consent, liberty for bidding by sellers and/or consignors is hereby reserved.
2. A 10% buyers charge will be added to the hammer price of each lot. This charge will be added to all invoices.
3. Subject to paragraph 8, all material shall be sold to the highest bidder as determined by the auctioneer. If any dispute arises during or immediately after the sale of a lot, the auctioneer shall have the right to recall the lot and put it up for sale again. In all cases, auctioneer's decision shall be final. For the bidder's protection, NO "UNLIMITED" or "BUY" BIDS WILL BE ACCEPTED. Bids are to be made in U.S. currency only.
4. Terms of this sale are strictly cash with payment due immediately upon receipt of invoice. Payment by check must be payable in U.S. currency only and drawn on a U.S. Bank. NO credit card purchases will be accepted. Title to all lots remains with consignor until paid in full.
5. Minors are expressly forbidden to bid in this sale.
6. Floor bidders and mail bidders not known to us must furnish satisfactory credit references, sufficiently in advance of the sale to allow for checking, or a deposit equal to 25% of their total bids for that session(s) before such bids can be accepted. Deposits submitted will be applied to purchases and any unused portion of such deposit will be promptly refunded.
7. All bids must be per lot as numbered in this catalogue. No lots will be broken. Lots will be sold in their numbered sequence unless auctioneer directs otherwise.
8. We reserve the right to withdraw any lot prior to the sale and to open the bidding on any lot at a reasonable price.
9. All items in this catalogue are guaranteed to be genuine unless specifically stated otherwise in the lot description. Claims to the contrary must be made in writing within three days after receipt of the lot. Any returned lot must be intact and in its original unopened holder. No lot may be returned without prior written consent. In no event may any lot be returned after thirty (30) days from the date of sale. LATE REMITTANCE FOR PURCHASES CONSTITUTES JUST CAUSE TO ABROGATE ALL RETURN PRIVILEGES FOR ANY REASON.
10. Grading is a subjective description in the opinion of the cataloguer, as to the state of preservation of a particular coin or lot. The term "Proof" or "Specimen" is used to describe a method of manufacture, and not a grade or condition. Such terms are the opinion of the cataloguer and shall be deemed to be part of the description and not an attribution. No warranty, whether expressed or implied, is made with respect to such adjectival descriptions, which can and do vary among experts.
11. This is not an approval sale. Bidders are expected to promptly purchase all lots awarded to them by the auctioneer. Floor bidders are encouraged to carefully examine all lots in which they are interested in purchasing, since NO LOT MAY BE RETURNED BY FLOOR BUYERS, INCLUDING THOSE LOTS WHERE THE BIDDER IS ACTING AS AGENT FOR ANOTHER PARTY, OR BY MAIL BIDDERS WHO HAVE EXAMINED THE LOT PRIOR TO THE SALE.
12. Mail bids will be accepted from those who can not attend the sale in person. Bids for all lots must be submitted in even dollar amounts, or they will be reduced to the next even dollar amount. Successful mail bidders will be awarded the lot at a nominal advance over the second highest mail or floor bid. When identical bids are received by the auctioneer, for a lot, preference is given to the first bid received. A mail bid will take precedence over an identical floor bid. A floor bidder must bid higher than the highest mail bidder to be awarded any lot. The auctioneer reserves the right to refuse any bids, which he, in his sole discretion, feels are not made in good faith.
13. The auctioneer can not be responsible for errors in bidding. Please make certain that you bid on the correct lot and that your bid is the maximum that you are willing to pay.
14. An estimate is provided for each lot. This estimate represents, in the opinion of the cataloguer, the current market value of the lot. Lots may, of course, sell for above or below this estimate.
15. All photographs in this catalogue are of the actual items being sold.
16. Postage, insurance and sales tax, if required by law to be collected, will be added to the invoice for any lot(s) invoiced to successful bidders. All lots delivered in the state of California are subject to applicable sales tax. Individuals purchasing lots for resale must submit an exemption certificate, signed by the purchaser or his agent and recognized by the state of California, with their current resale certificate number or be subject to the sales tax.
17. We reserve the right to require payment in full before delivering any lot to a successful bidder. It is the buyer's responsibility and obligation to have the lots fully insured while in his/her possession. Risk of loss is on the buyer. All lots sent to foreign countries, including Canada and Mexico, will be billed an additional 1/2 of 1% for insurance. The minimum insurance fee is \$5.00. Please send shipping instructions. Normally all lots will be sent via registered mail.
18. In the event a bidder fails to make remittance promptly, auctioneer reserves the right to resell the merchandise and bidder agrees to pay for the reasonable cost of such a sale and also to pay any difference between the resale price and the previously successful bid.
19. If the invoice for the auction is not paid for in full, when due, the unpaid balance will bear interest at the highest rate permitted by law until it is paid in full. If the matter is referred to an attorney for collection, bidder agrees to pay all attorney fees, court costs and other costs incurred by Ponterio & Associates, Inc. The courts of San Diego County, California shall have exclusive jurisdiction and venue over any suit initiated by Ponterio & Associates, Inc. to collect past due invoices and the service of process by certified/registered mail, return receipt requested, shall be sufficient to confer "in personam" jurisdiction over bidder.
20. Auctioneer reserves the right to postpone the sale by auction of the property, for a reasonable period of time, as the result of any act of war, natural calamity or significant relevant event, which, in the judgment of auctioneer, reasonably exercised, make it inadvisable to hold the auction as scheduled.
21. Our ultimate liability for any item is the price paid.
22. By bidding in this sale, bidder personally guarantees payment; if a corporation is the bidder, the officers and/or principals of the corporation agree to personally guarantee payment.
23. All bid sheets submitted by mail bidders must be signed. Company bids must be submitted with the signature of a duly authorized agent of such company.
24. Bidding in this sale constitutes acceptance by the bidder of all the forementioned terms and conditions of sale.

INSTRUCTIONS TO NEW MAIL BIDDERS

Bidding by mail permits you to participate in an auction as though you were attending it in person. The procedure is really quite simple. You tell us what you want, and the maximum amount you are willing to pay. We then, as your personal agent, try to buy the items listed for you at the lowest possible price.

The enclosed mail bid form has two sides for you to fill in. The front side provides all the information we will need to register you as a bidder, execute your bids for you and deliver your lots to you if you are a successful bidder. Please answer all the questions that may apply to you. **DON'T FORGET TO SIGN YOUR BID SHEET.**

On the back side are pairs of columns where you may list your bids. After carefully reading the lot description, write down the lot number and the maximum amount you are willing to pay for that lot. Don't forget that a 10% buyer's fee will be added to your actual purchase price if you are the lucky bidder. Continue to list lot numbers and bids for each of the lots you are interested in buying.

LOT	BID
3	400
25	350
99	200
269	600
307	700

When we receive your bid sheet, we will record your bids at the amount you have authorized us to bid for you, and we will, in addition, note any lots where an increase is authorized if absolutely needed to win the lot. For example, if the sample bid sheet shown at the right were yours, we would enter your bid on lot #3 as \$400. If yours was the highest bid received, you would be the purchaser at \$400. (plus 10%) or perhaps even less. If the second highest bid received on the lot was substantially less, your bid would be reduced to a "normal" increment above that second-highest bid, just as it would be if you were present at the sale yourself to execute your own bids. If you have authorized a percentage increase on the front side of your bid sheet and the bidding by others has exceeded your basic bid, we will then, as your personal agent, increase your bid to the minimum amount necessary to obtain the lot for you. The authorized increase will never be used except when your basic bid is exceeded.

Before you mail your bid sheet, do be sure to check it over to make certain you have bid on the correct lot(s) and that your bids are the ones you are both willing and able to pay for. Enjoy the catalogue, place bids on everything you would like to buy. If time is running out and you feel your bid sheet may arrive too late to be included, you may call our office between the hours of 8:30 a.m. and 5:00 p.m. Monday through Friday, giving us the lot numbers and amount you will pay for each lot, over the telephone. Please make sure you immediately send in your bid sheet for confirmation. Also, you may FAX your bid sheet to us. As your personal agents we wish you every success.

VIEWING OF LOTS

Lots will be available for viewing by prospective bidders at our office each day, Monday through Friday, by APPOINTMENT ONLY, between the hours of 9:00 a.m. and 5:00 p.m. September 11-October 3, 1995 only. Additionally, all material will be available for viewing at the Long Beach Convention Center.

COINS, TOKENS, OR... WHAT?

If it walks like a duck, looks like a duck, quacks like a duck, it's probably a duck. If something looks like a coin, has a value marked on it like a coin, and is metal like a coin, it may, or may not, be a coin.

For starters, let's take a look at several definitions of a coin. In the 1981 edition of "Webster's New Collegiate Dictionary" we find "2 a: a usu. flat round piece of metal issued by a governmental authority as money. b: metal money". The definition of a coin hasn't changed all that much over the past 200 or so years, as the 1771 edition of "Encyclopedia Britannica" has "Coin, denotes all manner of the several stamps and species of money of any nation. See MONEY (under which is noted "a piece of matter, commonly metal, to which public authority has affixed a certain value and weight to serve as a medium of commerce)".

With these in mind, we can generally state that a coin (1) is issued by a government, (2) has a given value, and (3) is a medium of exchange. Until about a century ago, there seems to have been less trouble in determining what a coin was, but times changed with the issuing of numerous fantasies and/or unofficial "essaies" in various lands. In more recent times, other items have become available, some being commemorative pieces sold at a premium above their face value and special strikings of coins not intended for circulation.

Let's take a look at a few different areas. As indicated above, coins are issued by governments ("public authorities"), both national (such as the United States, Mexico, Spain, etc.) and regional (Catalonia, Siberia, Tucuman, etc.). Nations may issue coins at any time, whereas regions or local authorities tend to do so in times of emergency. The coins of nation states tend to circulate throughout the issuing land while those of localities tend to stay in the vicinity of issue, especially if neighboring regions happen to be antagonistic to the one in question!

Coins have a given value. Long ago, coins were valued by the metals they contained. In ancient and medieval times these often were assayed and weighed if being circulated outside their normal area of use, and only a few carried markings denoting specific value. In modern coinage it became common to have coin values identified, although there were exceptions; even today the gold issues of the United Kingdom bear no marks of value. The noting of denominations on coins became more common during the past 150 years or so, once coins began to be produced of base(r) metal and the coins had less intrinsic value than the denominations they represented.

The fact that coins were issued by a government and bore a mark identifying a certain value enabled them to circulate and "do their job", that being to provide a means of transferring goods and services for given values. That was, and is, the primary function of a coin.

Coinage has evolved from being strictly utilitarian or functional into money-making programs for many countries. The advent of the modern commemorative and proof coinage, aimed more at collectors than spenders, started this movement, but the

big spurt in this activity began in the 1960's. From then on, an incredible array of Non-Circulating Legal Tender material has been produced by nearly every country in existence, again aimed at the collector; this "frenzy" became even more hectic when bullion related or bullion-denominated pieces became part of the collecting arena.

Now comes the fun. If the primary function of a coin is to serve as a medium of exchange, what are all these modern products? I accept the premise that they are coins IF they can freely circulate at a "given value", whether the denomination marked on the piece or based on the bullion content. If these items cannot circulate (by this I refer to their not being accepted in commerce or their use or redemption is not encouraged by the government which issued them) they should be called something other than coins.

Many of us have run into the situation of trying to spend a newly issued coin only to have someone reject the item. In 1971, during a trip to Guadalajara, I had a small number of 25 Peso "Olympic" coins for change, but the cab driver who took me from the airport to the hotel wouldn't accept any, nor would the desk clerk or a nearby restaurant. The next day I went into a bank where I found a manager who was aware of the coin and accepted them for notes, but only after clanking each one on the marble counter! That's not so bad, but it is a sad state of affairs when a government announces that it will not redeem certain coins it issued at face value.

So far I have only examined the material issued by legitimate governments. As can be seen, there are many things produced by a variety of "entities" that are being sold as coins. In some instances, these are "unofficial patterns" (such as the Edward VIII Crown pieces of varied British lands), "Fantasy" coins of China, and other items being produced by organizations with no backing of any government whatsoever. The Third Edition of "Unusual World Coins" contains a tremendous variety of these "coins", ranging from the "unofficial patterns" and Chinese "Fantasy" pieces mentioned earlier, medallion issues, "onzas", etc., which bear the names of known countries, but then we run into stuff from places that are not, never were, and never will be countries (or from someone representing himself/herself as the descendent of an extinct dynasty or land) being passed off as coins. Some of this material is quite nice and I have no problem with its promotion, sale, and collection, but these aren't coins and should not be described as such in any advertising material. At best, these items should be considered commemorative tokens or medallions, but that's about it.

It all goes back to the basic definition of a coin; a coin is issued by a government, it has value, and it is to circulate. It is an interesting development that so many countries have non-circulating coinage for collectors, but this is due to the demand for such materials or by certain countries in an effort to create such a demand. In either case, and the reality may be somewhere in between the two, there are many coins around which are not doing what they were originally supposed to do.
